

2014 RCIQE International Seminar

March 5, 2014

Centenary Hall, Hokkaido University

Sponsored by

*Research Center for Integrated Quantum Electronics (RCIQE),
Hokkaido University*

Program

13:30 - 13:35 Opening Address

13:35 - 14:15 " Interface State Characterization of GaN-based MIS Structures "

Boguslaw Adamowicz, Institute of Physics, Silesian University of Technology, Poland

14:15 - 14:55 " Wearable Biosignal Sensors for Smart and Healthy Living "

Tsugumichi Shibata, NTT Microsystem Integration Laboratories, Japan

14:55 - 15:15 Break

15:15 - 15:55 " Silicon-based Nanodevices for Diverse Applications "

Akira Fujiwara, NTT Basic Research Laboratories, NTT Corporation, Japan

15:55 – 16:35 " Novel Magneto-Nanoelectronic Devices Based on MnAs Nanoclusters "

Matthias T. Elm, Institute of Experimental Physics I, Justus-Liebig University Giessen, Germany

16:35-16:40 Closing Remarks
